Farsight Enclave Armies are typically red and I decided to go with a Dark Red for this one.. Do all units within the Farsight Enclave follow the same red/white color scheme? I would think there would be some variation due to the environment or at the very least as an effort to differentiate between different units.

This color scheme is different than others in that most Tau Schemes have a darker Soft Armor and a lighter Armor Plates theme.. The Farsight Enclaves are a series of heavily-fortified T'au colony worlds that are independent and indeed opposed to the rule of the T'au Empire.. This one flips that and give you lighter colored Soft Armor and darker Armor Plates.. Farsight Enclaves feels like it might suit the fluff fairly well If memory serves, D'yanoi supposedly got cut off from the rest of the Empire some time between the 1st and 2nd sphere and technologically regressed to sticks and stones.. They are led or ruled by the legendary T'au Fire Caste Commander Farsight and lie on the far side of the Damocles Gulf region of the Segmentum Ultima.
